---

## **PROJECTS**

### **Minor -Projects**

#### **Spotify Clone (HTML, CSS)**

Developed a responsive Spotify UI clone using HTML5 and CSS3. Replicated core layout features including navigation bar, sidebar, album grid, and static music player interface. Focused on clean design, semantic HTML structure, and modern CSS styling.

#### **Simon Says Game (HTML,CSS,Javascript)**

The Simon Says Game is a memory-based color sequence game built using HTML, CSS, and JavaScript. The objective is for players to memorize and repeat a growing sequence of colors. With each level, the game adds a new color to the sequence, increasing the difficulty.

This project showcases interactive web development skills, including DOM manipulation, event handling, sound integration, and dynamic UI updates.

## **Major-Projects**

### **RentNRest**

- Developed a full-stack accommodation booking platform
  - Features: search filters, listings filters, frontend +backend
  - Technologies: Node.js, Express, MongoDB, REST API
- 

## **ACHIEVEMENTS**
